French (Native or Bilingual)

Experience

Full Stack Engineer

IT services company

Jan 2023 - Apr 2023 (4 months)

Throughout the 4-month mission, I was responsible for developing and delivering a high-quality web application.

· Built a responsive and dynamic user interface using Nuxt.js

· Implemented Vuex store for state management

· Integrated with GraphQL API for data display and PostgreSQL

· Utilized AWS Lambda and API Gateway for serverless backend and improved API response time by 30%

· Integrated Jest.js with Continuous Integration (CI) tools CircleCI to automate the testing process and improve the development workflow.

I leveraged my expertise in frontend and backend development to design and implement scalable and efficient solutions that met business requirements.

Full Stack Engineer

Funding Invoice

Aug 2019 - Dec 2022 (3 years 5 months)

As a Full-stack Developer with expertise in a range of technologies, including:

· GraphQL

· Vue.js
· PostgreSQL
· JavaScript
· Electron
· Webpack
· Jest

I have · Designed and implemented complex, scalable, and secure web applications · Developed unit tests for front-end components using to ensure code quality and prevent bugs · Focused on optimizing user experience and performance · Collaborated with cross-functional teams to translate business requirements into technical solutions · Stayed up-to-date with the latest technologies and trends to deliver innovative and impactful solutions

Frontend Web Developer
TheTwoW
2018 - 2019 (1 year)
